

## COUNTY GIVES THOUSAND FOR FARM ADVISOR

Board of Supervisors Appropriate \$1000 for Support of County Farm Advisor. More Funds Needed at Once

One thousand dollars has been appropriated by the Board of Supervisors of Maricopa county to help defray the expenses of the county farm advisor for the next fiscal year, July 1, 1915 to June 30, 1916.

Unfortunately the funds appropriated by the Supervisors are not sufficient for carrying on the work to the best advantage, since with 5000 farmers to serve the farm advisor must have every facility possible at his command.

The cost of paying the salary and expenses of the farm advisor is over \$6000 per year. The funds used for this purpose are supplied co-operatively by the University of Arizona college of agriculture, the United States department of agriculture, the county and from other sources within the county. In order to properly carry on the work during the coming year \$1000 more is needed. The supervisors would be glad to appropriate more, if they were not prohibited by law from doing so. It is hoped that the Salt River Valley Water Users' association will repeat its appropriation of \$1000 which last year made it possible to start this work.

### TEMPEANS JOIN IN TRAVEL TO COAST

Fogal and Earle Will Leave This Morning by Auto—To Be Joined by Will Tweedy

Two cars from Tempe will join bright and early this morning in the almost continuous line of motorists that are daily winding their way through Arizona to California, the coast resorts and the expositions.

Frank Fogal and family and S. Z. Earle compose the party and tomorrow evening they will be joined at the Agua Caliente Hot Springs by Will Tweedy and party from Mesa.

It is an interesting fact that Fogal has planned for the next thirty or forty days. He has equipped his two cars, a seven passenger Hudson and a five passenger Overland, complete in every respect for camp life and the party will spend practically all of its time on the road. The intention is to get a bright and early start this morning and travel as far as Agua Caliente today. Mr. and Mrs. Fogal will compose the party as it will leave here. At Pomona they will be joined by Mrs. Earle who will make the trip up the coast and return.

If the new Willys-Knight car arrived from the factory last night as was expected, Will Tweedy will outfit the machine today and get an early start in the morning for Agua Caliente where he intends to join the party tomorrow evening.

The Fogal, Earle and Tweedy party will tour California for the next month and expect to return to the valley between the first and tenth of September.

Halbert Miller, select mayor of the new Easter town south of here was in Tempe yesterday. He is of the opinion that Easter will some day be recognized as an enterprising business center of the south side. Its post office is now distributing mail to over half a hundred patrons. Mr. Miller says that the community was apparently directly in the path of the wind and rain storm that visited the valley a week ago this evening. Several poorly constructed houses were demolished and almost every ranch suffered sundry damage here and there because of the heavy wind.

AID WILL MEET  
The Ladies' Aid Society of the Methodist church will hold its usual monthly business meeting tomorrow afternoon in the church parlor.

THE LAST OVERLAND  
Postmaster J. W. Woolf has joined the ranks of the auto circle and yesterday took into his possession a new Overland give passenger car. It was the last car Agent Earle had at his command and he was about the happiest man ever as he was preparing last evening for the Overland trip to the coast that will be started this morning. Earle has sold something like fifteen cars on the south side since he took over the agency early in March and practically all of them were the product of the Overland factory this season.

BAND WILL JOURNEY  
That its splendid work is being recognized outside of Tempe has been demonstrated by the local Merchants' band in securing a date for an oper air concert at Chandler on the evening of the thirteenth of this month. The concert of night before has given on the plaza here was enjoyed by several hundred people. The renditions were good and encore numbers were demanded in numerous instances.

GOOD TRIP, BUT—Mesa's ball team returned to the tem city in the wee small hours of yesterday morn from their Sunday vacation of the Superior country. They had a dandy trip, good luck on the road and were treated royally at Superior—only they lost the ball game. The Jewels started off in the wrong fashion. Bill McGowan, ditching, walked the first two men up, hit the next two, and then this hing and that thing happened until he Superiores had garnered seven runs off of two measly little hits. Mesa also scored in the first inning—one run. After the first eventful game the game was a hard fight and during the succeeding eight innings w runs apiece was the best either lub could do. Nine to three was the score. Mesa lined up: Morris pitcher; McGowan, pitcher; Bon first base; Mullins second base; Wil-

### GOOD PRICE EXPECTED FOR MESA CANTALOUPE

Government Man Confident That Local Growers Will Secure Top Notch Price

That the cantaloupe growers of the Mesa county will receive some of the best prices this season for the produce that they have recently shipped to the eastern markets is the opinion of W. T. Kitchen, who has been stationed in Mesa in charge of the office of markets of the U. S. department of agriculture and who left last evening for Walla Walla, Washington, where he will be busy for the next few weeks with the peach harvest. Mr. Kitchen has been in Mesa since early in July and from his office each day have been rendered statements showing the price cantaloupes have brought on the eastern markets. It will probably be the tenth of this month before final settlements are secured for this season's melons and in Mr. Kitchen's estimation good prices for practically all of the produce is certain.

Mr. Kitchen took the Santa Fe out of Phoenix last night and will go direct to the state of Washington where the office of markets will be established and the daily reports of what the peaches of that section are bringing on the foreign market will be published.

A large party of Mesa people left yesterday morning by auto and will spend the next month at the camping grounds in the White Mountains.
